

A rolling ladder with light-colored wooden rungs and a metal frame is positioned in front of a bar. The bar has a curved, light-colored countertop and a dark green base. Behind the bar, there are shelves with a perforated metal back and a scalloped edge, holding several glasses. The background wall is made of light-colored stone. To the right of the bar, there is a potted plant with long, green leaves in a light-colored, rounded pot. On the bar counter, there is a glass decanter and two glasses. The ladder has decorative cast-iron wheels at the base.

ROLLING LADDER

2024 Collection

Our Story

Handcrafted in America since 1905, Putnam has long been a leader in the rolling ladder industry, with the instantly recognizable Classic No. 1 Rolling Library Ladder. Originating in New York City, Putnam Rolling Ladder™ quickly became symbols of achievement, adding layers of prestige, functionality, and design to homes and businesses for well over a century.

The Putnam name and design synonymous with timeless heritage, sophistication, and enduring quality have found a new home within another esteemed brand in the rolling ladder world, Custom Service Hardware®. This Wisconsin based business, founded in 1977 by a local craftsman, has decades of expertise in crafting and selling high-quality woodworking hardware, cabinets, and rolling ladders.

Custom Service Hardware was uniquely positioned to continue Putnam's tradition of excellence. The acquisition was more than a business expansion; it symbolized a unique journey of collaboration and personalization, bringing together two storied histories in the industry. Ladders become a transformative element within your space as a functional, one-of-a-kind focal point that embodies your individual style, preferences, and dreams.

Rolling Ladders are instilled with a sense of purpose, style, and timeless familiarity.

PUTNAM CLASSIC

Nº 1

Custom-made and entirely unique, the original 1905 Putnam design serves as the cornerstone of our collection, encapsulating every ounce of its nostalgic charm. Initially known as the Classic No.1 ladder, this iconic piece of American history incorporates luxurious materials, imparting a sense of timeless elegance and craftsmanship that has endured for over a century.

Our manufacturing process is deeply rooted in tradition and heritage. For over a century, we have utilized the same remarkable equipment to handcraft every curved rail that leaves the shop.

Originally founded in New York City, Putnam Rolling Ladder™ continues to be entirely Made in America, with production now based in Wisconsin. Choose from an array of select wood types, timeless hardware finishes, and a wide range of additional customizations and accessories to bring your vision to life.

ALTA

ALTA is modern sophistication in a rolling ladder system. It pushes the boundaries with a linear, clean silhouette, perfect for enhancing any space. Using Quiet Glide® technology with state-of-the-art manufacturing processes, ALTA is quiet, easy-to-move, and stunning. Combine bold color combinations for a striking appearance or subtle finish pairings for a moody look.

Every component of the ALTA system is created and refined in Wisconsin. All metal components undergo a robust process that ensures a finish quality found only in premium finish applications.

ALTA features an inspiring harmony of metal and wood, perfectly blending heritage touches with contemporary finishes. All of these details, combined with clever engineering, provide a clean and sleek fastener-less look.
